The Carbondale Traction company is losing no time in completing their extension in this borough. Two large pieces of men went to work on Saturday morning and connected the rails back above and below the gravity track. There is now a continuous track from James H. White's to the gravity and from the upper side of the gravity as far as the Riverside hotel. The Delaware and Hudson company does not seem to be inclined to let the street railway people cross. Ever since the extension was begun, a trip of cars has been locked to the track directly in the line of the street railway. It is to be hoped that there will be no delay when the street railway company is ready to cross the gravity track, for the people are heartily tired of this trouble over it in operation.

John J. Swift, of Laurel street, was in the city today.

Miss Mary Monaghan, of Railroad street, who has been ill for some time, is steadily improving.

Surveyors have been busily at work the past week plotting out lots on the east side of the Lackawanna, opposite this borough. Within a short time Forest City people will have the pleasure of using better water. An effort has been made by the Lackawanna Water company for a long time to supply the people in this place with Bruce brook water, which is as pure a water as can be found anywhere in the state. The company has at last succeeded and intend to have a large reservoir built on Bruce brook this summer, which will supply the borough with a sufficient quantity of water, as it is estimated that 3,000,000 gallons of water can be supplied from it every twenty-four hours. In connection with the attempted robbery of George Wedeman's store at Vandling, last Saturday morning, as was reported in yesterday's Tribune, the following narrative comes from George Tovey, a resident of that place. When THE TRIBUNE reporter visited Vandling, Saturday, Mr. Tovey had not yet made known his story. It is as follows:

Mr. Tovey was returning from the mine between 1 and 2 o'clock Saturday morning and when opposite Wedeman's store he noticed two men on the stoop. Not thinking they were any "burglars," but some of his friends, he spoke to them, whereupon his supposed friends invited him to the porch. When he reached the porch, Mr. Tovey, to his surprise, found the men to be masked, and they pointed two revolvers at him. This had rather a chilling effect upon Mr. Tovey, and he faintly upon recovering, his newly-made acquaintances wanted to know if there was much of Uncle Sam's "long green" in the safe, which two of their accomplices were drilling. Mr. Tovey said he thought there was not very much money in the safe. The men working at the safe were so informed and they ceased operations. The four masked men then escorted Mr. Tovey to his home and tried to make an entrance to his house by the front door, but that was locked. The would-be robbers wanted to know if he had any money in the house he wished to be relieved of, and he said no, whereupon they departed for parts unknown, making Mr. Tovey promise not to tell of his visit with them.
